FDD Abstract

25X1X

INVESTMENTS FOR RECONSTRUCTION PROJECTS IN THE GDR (5 pp; German; October 1950)

This document consists of five typed tables, one each for Sachsen, Sachsen-Anhalt, Thüringen, Brandenburg, and Mecklenburg. The last four are dated 30 October 1950; the one for Sachsen is undated but is probably for the same date. All carry the heading "Ministry for Reconstruction" in the upper left-hand corner.

The main headings on the tables are "Investment Sums" and "Construction Sums". Each of these is sub-divided into "Number of Projects", "Over 50,000 Deutsche Marks?", and "Under 50,000". The figures are not given by project, but by the office responsible for the administration of funds. In some cases the name of the office indicates the probable nature of the projects (e.g., "Construction of Dwellings").

There is no indication as to whether the figures given are planned figures or actual amounts spent, nor is there any indication of the period of time covered.
